

## Automatic reversible electronic speed controller

---

- Automatic reversible electronic speed controller with reversibility switch, front adjusting knob, on/off switch, automatic/manual mode switch, no.1 probe for high zone with 10m length cable and no. 1 probe for low zone with 1m length cable.
- Manual/automatic mode switch: the automatic mode activates the temperature probes at ceiling and floor level, to regulate the fan speed so to achieve a uniform temperature in the environment. The manual mode allows the user to manually adjust the fan speed.
- Knob to adjust the speed in the manual mode. In the automatic mode, it adjusts the speed sensitiveness according to the temperature difference.
- 230V.
- For wall mounting.
- Dimensions mm: 160(L)x120(H)x80(P).

Description	Ampere	HCF900	HCF1200	HCF1400
HCFDC	5.0	up to 20	up to 17	up to 14
